

What a Year

Together we have provided a small library of climate books to 18 Boys and Girls Clubs, and 840 books to individual children in those clubs.

We had an Art Contest with Audubon, reaching 2000 children.

We joined in supporting the Youth Climate Summit.

We had an awareness bike ride, highlighting children and climate change.

We have 5 new air quality flags sites, and 4 new sites with Purple Air monitors.

We had an event in the major cities for people learn about our NGO.

We had our 3rd Annual Climate and Health in the 406 Conference.

We gave dozens of presentations to healthcare students across Montana, communities, organizations.

Many of us educated legislators and Congresspeople on issues and bills that affect our futures, and wrote opinion pieces.

It has been a great year!

Please think about donating to MthPHC to help our climate work in the coming year.

A gift from the heart for the person on your list hard to buy for, that is also a donation to climate action!

We'll send an e-card or a **physical handwritten card** showing your appreciation, when you gift a donation to MT Health Professionals for a Healthy Climate in their honor. A thoughtful sign of your shared values and love, and a chance to do something meaningful for Montana.

Order Today!

This is our only fundraiser this fall. We hope you can participate, or just donate by regular means

2026 Climate and Health in the 406

(4th Annual!) March 7, Bozeman

Topics include Infectious Disease, Indigenous Perspectives on Climate and Health, Plastics and Human Health. More to come!

STUDENTS:

Postering and presenting is an option, with prize money!

HOW HEALTH CAN HELP IN THE CLIMATE NEGOTIATIONS

Learning Corner

Research indicates that health concerns people more than any other issue affected by climate, and that healthcare providers are among the most trusted to deliver a message about climate change.

**MERRY CHRISTMAS AND HAPPY
NEW YEAR!**

THANK YOU FOR CARING!!
