AMA Journal of Ethics

- "The health consequences of climate change are visible, often measurable, pose serious threats everywhere, and offer opportunities to significantly improve health everywhere. Embracing sustainability - at the individual or organizational level - thus helps to fulfill the professional obligation to protect health."

MEANINGFUL ACTIONS

Protect Workers from Extreme Heat

In 2025, we signed [this letter](#) requesting OSHA pass a strong standard to protect workers from extreme heat. The House of Representatives wants to prevent this from ever happening. Write our Senators to oppose H.R. 6213

Strong Standards Save Lives

2900 lives, to be exact. EPA's Phase 3 greenhouse gas standards for heavy-duty vehicles, finalized in 2024 are under threat. Please comment to EPA re: this. [Toolkit here with complete information](#). Anyone can send in a comment!
